1. Pull an image from docker hub and run it in docker Playground

The screenshot displays two browser windows. The top window shows the Docker Hub page for the repository `uifd/ui-for-docker`. The page indicates that the repository is deprecated and suggests using Portainer instead. It provides a Docker Pull Command: `docker pull uifd/ui-for-docker`.

The bottom window shows the Docker Playground interface. It displays the instance ID `cd9an2u3_cd9av060qau0008hbjs0` and the IP address `192.168.0.13`. The terminal output shows the following commands and results:

```
# This is a sandbox environment. Using personal credentials #
# is HIGHLY discouraged. Any consequences of doing so are #
# completely the user's responsibilities. #
# #
# The FWD team. #

2. Create a docker file for the job portal application and deploy it in Docker desktop appliaction.

The image displays two screenshots of the 'UI For Docker' web application interface, which is used for managing Docker containers. The browser's address bar shows the URL: `ip172-18-0-4-cd9an2u3tccg00fgf6k0-9000.direct.labs.play-with-docker.com/#/`.

Top Screenshot:

- Navigation Bar:** Includes tabs for Dashboard, Containers, Containers Network, Images, Networks, Volumes, and Info, along with a Refresh button.
- Header:** Features the title 'UI For Docker' and the subtitle 'The UI for Docker container engine', with a 'Learn more.' button.
- Running Containers:** A section showing a single container named 'beautiful_goldwasser' with a status of 'Up About a minute'.
- Status:** A large green donut chart indicating the overall system status.

Bottom Screenshot:

- Running Containers:** Similar to the top screenshot, showing the 'beautiful_goldwasser' container.
- Status:** A large green donut chart with a legend below it: 'Running' (green square), 'Stopped' (red square), and 'Ghost' (grey square).
- Containers created:** A line graph showing the number of containers created over time, with a peak of 1 on 21/10/2022.
- Images created:** A line graph showing the number of images created over time, with a peak of 1 on 21/10/2022.
